The *International Journal of Myriapodology* is an international journal publishing original research on Myriapoda as well as Onychophora which have traditionally been “adopted” by myriapodologists. The journal’s main scope is taxonomy in a broad sense, but includes other disciplines like ecology, evolution, genetics, morphology, palaeontology, parasitology, phylogeny, physiology, and zoogeography.

The journal will be published in an online version as well as on paper.  
The *International Journal of Myriapodology* is published jointly by Pensoft and Brill.

### ONLINE SUBMISSION

Authors are strongly encouraged to submit their manuscript online via the *Editorial Manager* (EM) online submission system at [www.editorialmanager.com/IJM](http://www.editorialmanager.com/IJM).

The following categories of papers are considered:

- Feature articles – papers based on original research;
- Review articles – longer articles, offering a full overview or historical perspective of a topic
- Short communications – short (max. 2 pages) articles including correspondence, reports on new species
- Book reviews and announcements
